

Individualized Minor in Humanities, Arts, and Social Sciences

Individualized Undergraduate Minor

Program Advisor: Prof. Sandy Woodson. Students declaring an Undergraduate Individual Minor in HASS must choose 18 restricted-elective credits in HASS with a coherent rationale reflecting some explicit focus of study that the student wishes to pursue. A student desiring this minor must design it in consultation with a member of the HASS faculty who approves the rationale and the choice of courses, e.g., pre-law or pre-med courses.
