

Minors

The Mines guideline for minor programs can be found in the Undergraduate Degree Information & Graduation Information section of the Mines Catalog.

- Aerospace Engineering
- Applied Mathematics and Statistics (AMS)
- Biology
- Biomechanical Engineering
- Biomedical Engineering (BME)
- Business
- Chemistry
- Computer Engineering
- Computer Science
- Culture, Creativity, and Communication
- Data Science
- Economics
- Electrical Engineering
- Energy
- Engineering Physics
- Environment and Sustainability Studies
- Explosive Engineering
- Geological Engineering
- Geophysics/Geophysical Engineering
- Global Politics and Society
- Guy T. McBride, Jr. Honors Program in Public Affairs
- Humanitarian Engineering
- Humanities, Arts, and Social Science
- Mechanical Engineering
- Metallurgical and Materials Engineering
- Mineral Processing & Extractive Metallurgy (MPEM)
- Mining Engineering
- Music, Audio Engineering, and the Recording Arts
- Operations Research
- Petroleum Data Analytics
- Petroleum Engineering
- Physics
- Quantum Engineering
- Robotics and Intelligent Systems
- Space Mining
- Structural Engineering
- Teaching
- Underground Construction and Tunneling
- Water Sustainability
